

MANASHJYOTI BORA

Full Stack Software Developer

Nagaon, Assam, India | manashjyotibora122@gmail.com

Portfolio: manashjyoti-bora.vercel.app | GitHub: github.com/Manashjyoti-Bora | LinkedIn: linkedin.com/in/manashjyoti-bora-323b97405

SUMMARY

Full Stack Software Developer specializing in React, Next.js, TypeScript and Node.js. Built and deployed 4+ production web applications end-to-end - from design and architecture to Git workflow and cloud deployment on Vercel. Strong foundations in vanilla HTML/CSS/JavaScript, clean modular code and mobile-first responsive design. Actively seeking software / web developer internship and junior roles.

TECHNICAL SKILLS

Frontend: React 19, Next.js (App Router), TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Redux, Bootstrap

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, Firebase, Supabase

Tools & Deploy: Git, GitHub, VS Code, Vite, npm, Postman, Figma, Vercel, Netlify, GitHub Pages

PROJECTS

AUREA - Premium Portfolio Website

Next.js 14, TypeScript, Tailwind CSS, GSAP, Framer Motion, Three.js | manashjyoti-bora.vercel.app

- Award-style portfolio with 3D particle hero, GSAP scroll animations, command palette and AI chatbot.
- Engineered for performance and accessibility: SSG pages, security headers (CSP/HSTS), SEO with JSON-LD, sitemap and dynamic OG images.
- Live GitHub integration, validated contact API with rate limiting, dark/light themes with 5 accent palettes.

NexusMart - Full-Stack E-Commerce Platform

Next.js App Router, TypeScript, Node.js API Routes, MongoDB, JWT Auth | github.com/Manashjyoti-Bora/nexusmart

- Complete store: product catalog, cart, checkout, order history and admin product CRUD panel.
- JWT authentication with bcrypt hashing and HTTP-only cookies; Zod validation on client and server.

DevHire Pro - Job Portal & ATS

React 19, Vite, JavaScript, Modern CSS | github.com/Manashjyoti-Bora/devhire-pro-ats

- Real-time multi-attribute filtering (keyword, skill, location) with memoized rendering.
- Interactive application pipeline tracker and glassmorphic light/dark theming.

TaskFlow - Agile Kanban Suite

React, JavaScript ES6+, State Management | github.com/Manashjyoti-Bora/taskflow-enterprise

- Dynamic Kanban boards (To Do / In Progress / Done) with live priority tagging.
- Centralized state design keeping all views in sync without page reloads.

EDUCATION

B.Voc in Information Technology

Nagaon, Assam | Ongoing

HIGHLIGHTS

- Engineered and deployed this portfolio's full workflow (Git, GitHub, Vercel CI) entirely from an Android device using Termux.
- 100% of project code public on GitHub - clean commits, documented repositories.

- Mobile-first mindset: every project tested on real low-end devices.
